scholarship on plato s dialogues persistently divides its focus between the dramatic or literary and the philosophical or argumentative dimensions of the texts but this

hermeneutic division of labor is naïve for plato's arguments are embedded in dramatic dialogues and developed through complex largely informal exchanges between literary characters consequently it is questionable how readers can even attribute arguments and theses to the author himself the answer to this question lies in transcending the scholarly divide and integrating the literary and philosophical dimensions of the texts this is the task of trials of reason the study focuses on a set of fourteen so called early dialogues beginning with a methodological framework that explains how to integrate the argumentation and the drama in these texts unlike most canonical philosophical works the early dialogues do not merely express the results of the practice of philosophy rather they dramatize philosophy as a kind of motivation the desire for knowledge of goodness they dramatize philosophy as a discursive practice motivated by this desire and ideally governed by reason and they dramatize the trials to which desire and reason are subject that is the difficulties of realizing philosophy as a form of motivation a practice and an epistemic achievement in short trials of reason argues that plato's early dialogues are as much works of meta philosophy as philosophy itself

rea's ftce general knowledge test prep with online practice tests gets you certified and in the classroom nationwide more than 4 million teachers will be needed over the next decade and all must take appropriate tests to be licensed rea gets you ready for your teaching career with our outstanding library of teacher certification test preps our test prep is designed to help teacher candidates master the information on the ftce general knowledge exam and get certified it's perfect for college students teachers and career changing professionals who are looking to become florida teachers written by a florida teacher education expert our complete study package contains an in depth review of all the competencies tested on the ftce general knowledge exam including english language skills essay skills mathematics and reading based on actual ftce exam questions our three full length practice tests feature every type of question subject area and skill you need to know for the exam the online tests at rea's study center offer the most powerful scoring and diagnostic tools available today automatic scoring and instant reports help you zero in on the topics and types of questions that give you trouble now so you'll succeed when

in this major work of historical and political analysis mona harrington examines crucial missteps and uncertainties in the american statecraft from woodrow wilson's time to ronald reagan's and traces them to a potent myth at the center of our political thinking it is a myth peculiarly american a long held belief that the troubles of society can be traced to some specific evil be it a profiteering in munitions or the multinational corporation or the communist conspiracy or wasteful social programs and that by smiting the evil we can achieve social well being for all the author demonstrates how deeply this dream of deliverance has been rooted in american culture from the very beginnings of the nation in the concept of a society in which conflicts between groups of widely divergent interests can be resolved without undeserved loss to any party we see the consequences of this belief in our continuing tendency to oversimplify issues both domestic and foreign and in our obsessive expenditure of public energy on the search for and pursuit of the evil to be exorcised the dilemma is further exacerbated because the country's three major economic interest groups industrial wage earners industrial owners and managers and the cluster of interests tied to local economies are prone to demonologies as widely divergent as their interests and there can seldom be agreement as to the identity of the evil how this bondage to the dream of deliverance has affected the functioning of american government making our politics a never ending argument whose terms have scarcely changed over the past century is brilliant explicated connecting the deepest workings of statecraft to what we know about the dynamics of our own individual lives this highly original book leads us away from a myth driven politics and toward a difficult encounter with reality toward liberation from the endless search for the serpent whose defeat with

return us to eden toward a national recognition that in conditions of conflict it is not always possibly for all to emerge as winners toward the shaping of a politics that will enable us to allocate in the most decent possible way the losses that we cannot avoid

remedies in construction law brings together various well established strands of the law and considers practical remedies for breach of contract and tort in connection with construction projects now in a fully updated second edition it covers topics such as damages termination quantum meruit recovery injunctions limitation adr this book continues to be a vital reference to lawyers and construction professionals seeking specialist insight into how remedies function in the construction sector
